(I) Istruzioni per la sicurezza e simboli utilizzati

Rischio di lesioni da scossa elettrica

Il montaggio deve essere effettuato esclusivamente da elettricisti autorizzati nel rispetto delle normative vigenti, in particolare anche della norma VDE 0100, Parte 701 ovvero alle leggi vigenti a livello nazionale. Il mancato rispetto di quanto sopra fa decadere il nostro obbligo di garanzia e responsabilità. Le installazioni idrauliche devono essere eseguite soltanto da personale specializzato autorizzato. Le lampade integrate nell'armadio a specchio devono essere sostituite solo dal produttore, da un tecnico di assistenza incaricato o da una persona qualificata.

Materiale di fissaggio

Le viti in dotazione sono adatte per cemento e mattoni pieni in pietra arenaria calcarea. In caso di pareti con intercapedini o simili, si raccomanda l'uso di materiale di montaggio corrispondentemente adatto.

Esclusione di responsabilità

La ditta HEWI non risponde per eventuali lesioni personali o danni materiali, causati direttamente o indirettamente da errori di montaggio, utilizzo o manutenzione, in particolare in seguito al mancato rispetto delle avvertenze e delle norme di sicurezza.

Per informazioni rivolgersi al servizio assistenza sanitari HEWI, tel. +49 5691 82-0.

(E) Indicaciones de seguridad y símbolos utilizados

Peligro de lesiones por descarga eléctrica

El montaje solo debe encomendarse a electricistas profesionales autorizados y debe llevarse a cabo teniendo en cuenta las normas vigentes, sobre todo, la norma VDE 0100, parte 701 o las normas nacionales correspondientes. En caso de incumplimiento quedará anulada nuestra obligación de garantía y responsabilidad. Las instalaciones de fontanería solo deben encomendarse a especialistas autorizados. Las fuentes de iluminación montadas en el armario con espejo solo deben ser sustituidas por el fabricante o un técnico de asistencia encargado por el primero o una persona con una cualificación similar.

Material de fijación

Los tornillos incluidos en el volumen de suministro son aptos para hormigón y ladrillos sílico-calcáreos macizos. Para paredes huecas o de cualquier otro tipo debe utilizarse material de fijación adecuado según corresponda.
