The diagram illustrates the installation of a shower door track in three steps:

- 1.** Insert the track into the wall.
- 2.** Tighten the screws.
- 3.** Adjust the track angle to 30 degrees.

An inset shows the track being bent at a 90-degree angle (B) to fit the corner.

6

Diagram 6 illustrates the final step of installation. A shower arm is shown extending horizontally from the wall. A shower head is being attached to the end of the arm. An arrow labeled '1.' indicates the shower head being slid onto the arm. An arrow labeled '2.' points down towards the shower head, and a circular arrow labeled '3.' indicates the shower head being rotated to lock it into place.
