AUSSCHNITTSCABLONE
GABARIT POUR DECOUPE
TEMPLATE FOR CUTTING

9307 79 A3
Stand: 09. 2021

Après collage au silicone, laisser reposer 24 heures.
Laisser sécher 24 heures avant le transport.

A cross-sectional diagram of a shoe sole assembly. It shows a thick, textured layer of plastic plastifant on the left, which is bonded to a thinner, hatched layer of silicone rubber. The silicone rubber layer is shown curving upwards and to the right, forming a heel or arch support structure. A label 'SILICONE RUBBER' with an arrow points to the hatched layer, and another label 'PLASTIC PLASTIFANT' with an arrow points to the textured layer.
