GROHE

MY VISION IS TO REVOLUTIONISE THE WAY WE CONNECT WITH WATER

Dear Customers

As a forward-looking company we have always been at the forefront of advancing water technology – but I feel we are experiencing an unprecedented and exciting era of change where great design has created a truly global language, but also where the incredible diversity of culture and aesthetics across our planet is being explored and celebrated.

At GROHE we are proud to be at the heart of this changing global landscape, where the future of technology is already transforming our idea of the home into something smarter and yet also more personalised. We are passionate about the ways in which digital advances and innovative design are improving our own intimate relationships with where we live, down to the most personal of daily routines.

Take our latest innovation, the Spalet shower toilet, inspired by the growing demand for tailored intimate care and higher-than-ever standards of personal grooming. We have drawn on the expertise and ideas that have been at the heart of Japanese bathing culture for centuries by applying our own engineering expertise and design excellence. It's just one example of our ethos of combining the best aspects of traditional water culture with the latest cutting-edge technology. The result is a genuinely progressive product that will revolutionise the cleaning routines of consumers before the day has even begun.

Another of our latest innovations is 3D showering, where an intuitive push-button SmartControl with memory function delivers an ideal shower immediately, with no water wasted, and offers customers a comfortable, sensual, ecologically smart shower that is also simple to control.

At GROHE we know the importance of paying close attention to the needs and aspirations of all our customers, and innovating to meet them. As Masters of Technology we excel in design, technology, and sustainability, meaning we are perfectly equipped to provide products that exceed all expectations – both today and tomorrow.

MELANIE PAPADIAS

Master of Technology, listens to the hush of GROHE Whisper® water technology as she tests it in the acoustics lab.

MASTERS OF TECHNOLOGY

GROHE's people are regarded by their peers in the industry as Masters of Technology, because of their innovations, outstanding design and award-winning fittings. By a combination of their advanced craftsmanship and their cutting-edge approach to effective teamwork and processes, our Masters of Technology take the lead in developing, designing and manufacturing our outstanding product range, all the while testing and fine-tuning each piece to ensure continued customer satisfaction.

The result: Timeless design. And quality that lasts a lifetime. Again and again GROHE products surprise users with unique features that provide 'Pure Freude an Wasser'. When you use a GROHE product you can feel the difference. Time after time.

THEOCHARIS LIOLIS

Master of Technology, produces unbeatable hardwearing tap surfaces with GROHE StarLight®.

Timeless beauty and quality that lasts a lifetime - this captures the essence of the GROHE Masters of Technology pledge. With unfailing regularity, our experts deliver on it with brilliant products and unmatched performance.

It started with Carl Nestler, a manufacturer and developer of taps for all kinds of tastes and purposes. Ever since then the Masters of Technology have done more than continuously change the world of taps – we have improved it.

Ongoing investment in research and development at GROHE has led to the creation and launch of world-leading bathroom and kitchen innovations.

RUURD V. LEEUWEN

Master of Technology, measures how long GROHE CoolTouch® keeps the tap surface cool despite the flow of hot water.

JEANNINE FISCHER

Master of Technology, uses a force meter to determine how little pressure is needed to operate a lever fitted with GROHE FeatherControl technology.

MICHAEL POTTHOFF

Master of Technology, uses a 3-D measuring table to ensure that ceramic sanitaryware and taps are perfectly compatible.

All GROHE products are defined by their exceptional quality, with every component undergoing a series of stress tests – the toughest in the industry – to ensure ease of use and perfect looks. Only when they have passed with flying colours are they free to carry the GROHE name out into the world.

Activities such as washing hands, showering and making coffee may seem rather mundane to the rest of us. But for the Masters of Technology at GROHE they represent a science all their own – one that we passionately seek to perfect with the ultimate in care, precision and meticulous attention to detail. All the while, we never lose sight of our goal – to share the 'Pure Freude an Wasser'.

MADE IN GERMANY

A passion for quality. Precision crafted to the highest standards. Precision is synonymous with the GROHE brand. Our “Made in Germany” seal of exceptional quality has always characterised our work. We believe that this is in large part because our award-winning design and development teams are all based in Germany, home to the highest quality products in the world. We are proud of upholding this German tradition and we guarantee our customers consistently superior manufacturing – down to the smallest detail. GROHE also delivers top quality product development. At our facility in Hemer, in the Sauerland region, our engineers and designers work hand in hand to refine our innovative ideas. We hold all our facilities in Germany, Portugal and Thailand to the same GROHE quality promise and high manufacturing standards. We live by our global standard of perfection.

SUSTAINABILITY

Sustainability starts with quality. If you decide on GROHE, you choose safe products which were created to be long-lasting and resource-friendly. We impose the most stringent durability tests with 15-year service life conditions. We want you to enjoy your GROHE products for many years to come. Sustainability is a pervasive and essential part of our corporate culture. You can enjoy your GROHE bathroom solutions with a clear conscience for many reasons:

Innovative energy conservation. We have developed countless innovative technologies which will help you to conserve energy without having to sacrifice comfort and pleasure in the bath. For example, the thermostats with GROHE TurboStat® technology reach the desired shower temperature within seconds and fittings using GROHE SilkMove® ES combine ultimate ease of use with energy-saving innovations. This modern technology prevents the unnecessary heating of water when you use the moderate setting.

Smart water conservation. Respectful water resource management is another topic close to our hearts. Many of our fittings and shower systems are equipped with the revolutionary GROHE EcoJoy water conservation technology, reducing water use by up to 50%.

Social responsibility. As an international company, we are aware of our responsibilities to the environment. We maintain an open and objective dialogue with the general public. At our facilities we promote environmental awareness to improve the health and safety standards of our employees.

Surveillance by independent certification partners. Each of our facilities is regularly inspected by independent, external certification authorities in health, safety and environmental protection to ensure compliance with ISO standards. We follow the International Standards ISO 14001:2009 and OHSAS: 2007.

MOMENTS OF TRUTH

GROHE's Masters of Technology announce the innovative quality of their work in so-called "Moments of Truth". These are the moments when the end-user becomes aware of the tangible benefits that the product offers, as well as the achievement that it represents, for the very first time. At these times, all the efforts that have gone into research, development, production and refinement result in genuine delight and authentic satisfaction for the customer.

WHEN **GERMAN** DESIGN AND **GERMAN** ENGINEERING...

GROHE's people have been regarded by their peers in the industry as Masters of Technology, because of their innovations, outstanding design and award-winning fittings.

...MEETS **JAPANESE** SPA CULTURE

Would you eat raw fish without knowing something of the culture and tradition of sushi? We have learned so many things from Japan's culture: bathing rituals, eating rituals, manufacturing processes. We studied their advanced sanitary customs and technological know-how and now introduce a new and revolutionary sanitary concept based on breakthrough technology. A technology that cares intelligently and that will change your life – at least, an essential and most private part of it.

ULTIMATE HYGIENE FOR 100 YEARS WITH AQUACERAMIC AND HYPERCLEAN

GROHE AQUACERAMIC DOUBLE THE PROTECTION FROM IMPURITIES

It creates a smooth surface that impurities can't stick to, meaning impurities or residues cannot attach to the bowl and the powerful triple vortex flush easily cleans with one flush. This innovative surface treatment works in two ways – it uses a hydrophilic layer to prevent residues sticking to the bowl, and it uses nano-technology to prevent limescale latching onto the surface and attracting dirt and grime. The AquaCeramic surface is coated before firing and lasts more than 100 years! Even scrubbing won't wear it off. Alongside GROHE's HyperClean finish it locks out impurities and bacteria for good, making cleaning effortless and maintaining the sparkling, fresh-from-the-box finish.

100 YEARS OF CLEAN AQUA CERAMIC

GROHE HYPERCLEAN NO CHANCE FOR BACTERIA TO GROW

Take confidence that your bathroom is hygienic and clean with GROHE HyperClean, which uses naturally anti-bacterial silver ions to inhibit germs and prevent stains and odour. During the glazing process this exceptionally smooth and hardwearing finish is added which prevents 99.9% of bacteria growth, meaning your ceramics stay sparkling clean and germ-free with the minimum of effort. Take peace of mind from this feature, certified by the Society of Industrial Technology for Antimicrobial Articles, guaranteed to make your bathroom a safer, cleaner and germ free place for you and your family.

Ceramic materials proudly feature the SIAA (Society of Industrial Technology for Antimicrobial Articles) brand mark based on ISO for KOHKIN – stringent criteria for the anti-bacterial effect and the safety of the agent.

GROHE
PowerFlush

GROHE TRIPLE VORTEX THE POWER OF THREE

Unlike other toilets, GROHE's innovative triple vortex flush system creates a powerful vortex of water that swirls to cover and clean the whole of the bowl. Despite its power, this effective flush has low water consumption, with a dual flush option that uses just 5l of water and only 3l for a short flush. Instead of one or two water outlets, the Triple Vortex system flushes from three outlets – one at the back, one at the side and one at the base of the bowl – creating an incredibly powerful flush that leaves nothing behind.

GROHE RIMLESS LEAVES BACTERIA NOWHERE TO HIDE

Corners and crevices are playgrounds for bacteria, especially under the rim of the toilet bowl. That's why we've created the "rimless" bowl where every surface is easy to reach and effortless to keep clean, even in the parts you can't see. In tandem with the triple vortex flush it makes this the cleanest toilet ever.

INNOVATIVE DEVELOPMENTS FOR ULTIMATE TOILET HYGIENE

HYGIENECLEAN

Outstanding hygiene features provide ultimate cleanliness. Combining our leading-edge anti-stick coating AquaCeramic and the HyperClean glaze that prevents the growth of 99.9% of germs you can be confident that your ceramic will stay clean for 100 years.

AQUACERAMIC

Creates a smooth hydrophilic layer on the ceramic surface that dirt and limescale can't stick to, meaning there are no residues after flushing. Makes your toilet 100 years clean!

HYPERCLEAN

This exceptionally smooth and hardwearing glaze uses silver ions to prevent 99.9% of bacteria growth, keeping your ceramic sparkling clean and germ-free.

GROHE POWER FLUSH

Strong vortex action creates a high-suction force for an extra-powerful flush, thoroughly cleaning all corners of the toilet bowl.

TRIPLE VORTEX FLUSH

Three water outlets create a powerful vortex effect with each flush, covering and cleaning every corner of the bowl for ultimate hygiene.

RIMLESS TOILET BOWL

The rimless toilet bowl allows easier cleaning. No dirt collects on the rim, and the interior of the bowl is clean and bright – without splashing.

AUTOMATIC CLEANING

Spray arm heads are cleaned before and after each use.

ANTI-BACTERIAL SPRAY NOZZLE

Made from 99.9% anti-bacterial material, certified by the SIAA, the spray nozzle stays germ-free at all times.

ANTI-BACTERIAL NOZZLE GUARD

The spray arms are protected behind a removable 99.9% anti-bacterial nozzle guard for total hygiene.

EXCHANGEABLE SPRAY HEAD

The spray arm can be easily replaced.

QUICK – RELEASE SEAT¹

A special hinge allows easy removal of the toilet seat for cleaning.

¹Only seat lid can be taken out

03 WE'VE TAKEN CARE OF **YOUR PERSONAL COMFORT**

Take total control of your cleansing routine in three different ways. You can use the smartphone app, which lets you programme your own user profile effortlessly, reach for the intuitive remote, or use the simple control panel at the side of the seat. What could be more simple?

PERSONAL COMFORT

AIR DRYER

Enjoy the ultimate warming comfort of an air dryer function, leaving you completely clean and dry.

ODOUR ABSORPTION

Never worry about bathroom odours! Two vents keep any smells at bay – an airshield around the bowl surface seals the air inside the toilet, keeping odours in the bowl, while the other draws odours away completely through an active carbon filter.

SEAT LID OPEN AND CLOSE

The toilet's sensor detects your presence, automatically opening the lid as you approach. You can preset automatic open and close, seat lid only or both seat lid and seat.

NIGHTLIGHT

The GROHE Sensia® Arena is there to look after your every need from start to finish. That's why we've included a soft nightlight to guide your way at night that comes on when the lid opens automatically. You can also activate a permanent LED light if you prefer to have a gentle light signal to guide your way at all times.

SMART PROFILING FOR BEST PERSONAL COMFORT

SMART PHONE APP ANDROID/IOS

Control your shower toilet and save your personal settings to your user profile for extra convenience via the Spalet app. Available for IOS or Android smartphone systems.

USER PROFILE MEMORY¹

You can save different user settings and recall them every time when you use the toilet.

REMOTE CONTROL

Access all functions by remote control, comfortably and intuitively.

SIDE CONTROL PANEL

Basic functions can also be controlled directly on the seat at your convenience.

AIR DRYER

After a warm-water shower, the warm-air dryer provides fast and gentle drying.

ODOUR ABSORPTION

As soon as you sit down on the seat, odour extraction is activated automatically.

AUTOMATIC SEAT OPEN & CLOSE

When approaching the toilet, a sensor recognises your presence and the lid and seat open and close automatically.

NIGHTLIGHT

The shower toilet is lit by a soft light in the dark to help you find your way.

SOFT CLOSE SEAT

Both seat and lid have a gentle and quiet soft-closing mechanism.

AUTOMATIC FLUSH²

The moment you move away from the toilet, a sensor-controlled flush is actuated.

GROHE SENSIA® IGS

Ultimate freshness – completely intuitive. GROHE Sensia® IGS makes a trip to the toilet a pleasant experience. This shower toilet will routinely impress with its elegant design and many high-tech details every day. You can't get more thorough than that. Let GROHE Sensia® IGS give you a complete feeling of perfect hygiene.

EUROCUBE BATHROOM MAKE A CLEAR STATEMENT

Straightforward, attractive and always focused on the essential. Cosmopolitan life in the teeming city becomes a bit more manageable if you are surrounded by straight lines. The overarching concept of GROHE Eurocube evokes the dynamic lifestyle of busy people and celebrates the dramatic beauty of the cube. Enjoy a bit of clarity.

Pure metropolitan design. No ifs, no buts, no deviations. Eurocube bath architecture has that clear sense of rigour that comes with innovative technology, exemplified by the GROHE StarLight® chrome finish.

Modern rationality. The sharply cut square blends visually with the flat surfaces of the elegant double washbasin and the luxurious wall-mounted WC for a harmonious effect.

Eurocube's angular looks conceal something silky soft: GROHE SilkMove® technology for easy handling.

Clear profile. The minimalist 4-hole tub and bold, artistic design combine to form a greater whole.

The modern Eurocube Shower combination with Rainshower® echoes the angular styling.

Innovative design, strictly applied. This range's cubic forms are reflected in all fittings, complementing the whole bathroom to the smallest detail. The geometric washbasin tap employs straight lines and delivers a perfect stream of water thanks to the slightly chamfered spout.

A striking style element, the square cut-out detail on the lever handle softens the angularity and lends a unique look.

ESSENCE BATHROOM UNDERSTATED ELEGANCE

Classic lifestyle, gently interpreted. For people who are attracted by clear, visually pleasing designs, GROHE Essence brings aesthetics without pretension. Complete bathrooms in this range use balanced, modern styling and create space for inventive furnishing ideas and innovative technologies.

Luxurious shower: The wall-integrated shower solution with Rainshower® head shower and Euphoria stick hand spray adds a luxury touch to your daily shower experience. The design corresponds to the graceful understatement of the Essence range perfectly.

Perfectly sensual. Time and again, Essence uses the cylindrical form in exciting ways. An artful play of shapes recurs throughout the range, from luxurious showers to architecturally shaped washbasins and radiant fittings which are available in sizes S to XL.

Simply beautiful. This elegant freestanding bath is the embodiment of modern luxury. On its own, it is a dramatic centrepiece. The elegant matching floor-mounted bath/shower mixer harmonises perfectly with the distinctive Essence design. Beautiful innovations include GROHE StarLight® for a chrome finish with long-lasting shine.

The fine curved lines run through all mixer models and ceramic designs like a subtle thread.

GROHE THERMOSTATS

Precision control for a relaxed showering experience.

As our gauge when constructing GROHE thermostats we used the most sensitive thermometer around – your skin. The revolutionary thermostats in our Grohtherm range ensure that hot and cold water will touch your skin in exactly the proportions you desire. GROHE TurboStat® is a revolutionary technical feature – it provides the correct shower temperature in seconds and keeps it constant. The many elegant design features in these miniature technological marvels are wonderfully innovative.

COMFORT, SAFETY, SAVINGS

We've all been there before. You've just stepped into the shower when someone else in the house either turns on a tap or flushes the toilet; suddenly the temperature of your shower plummets or becomes scalding hot – leaving you with soap in your eyes as you try to manually adjust the temperature back to a comfortable level. Install a GROHE thermostat and you can be sure of a safe and enjoyable showering experience every time.

What's inside? Thermostatic valves work by constantly mixing hot and cold water to a pre-selected temperature. Even if there is a change in the water supply, the thermostat reacts by rebalancing the quantities of hot and cold water to maintain the correct temperature. In the most extreme cases, i.e. should the cold water supply fail, the hot water shuts off automatically in a fraction of a second to prevent scalding.

Style choices. GROHE offers concealed and exposed thermostats. With concealed models, the body of the mixer is installed behind the wall. With exposed thermostats, the mixer is mounted on the wall and all the pipe work is behind the wall.

User-friendly features. Our thermostats also feature a SafeStop button, to prevent children from turning up the temperature and scalding themselves and an EcoButton to reduce water usage by up to 50%. Our EasyLogic controls are intuitive to use and cater to the entire family, whatever their height, while the AquaDimmer allows you to turn the water on and off, adjust the flow rate and divert between two water outlets, e.g. hand shower and bath spout.

GROHE thermostats based on winning technology. LGA QualiTest GmbH, a subsidiary of TÜV Rheinland, carried out a major product test in 2006 comparing several thermostats from leading European manufacturers. Our Grohtherm thermostats came out on top, receiving Number One ranking, thanks to their GROHE TurboStat® and GROHE CoolTouch® technologies. These results have strengthened us in our mission to continuously develop innovative technologies, as our aim is to offer you the best possible technology, always.

GROHE's quick guide to thermostat technology.

What is a thermostat?

A thermostat maintains an exact water temperature of your choice, independent of water use elsewhere at home.

How does it work?

The thermostatic mixer valve mixes the hot and cold water and reacts instantly to any changes in the supplies, ensuring the temperature is maintained within one degree deviation.

What are the benefits?

The pre-set temperature is reached within a fraction of a second and remains constant so there's no risk of scalding.

Are there different types available?

Yes, GROHE offers many different models to suit every style of bathroom.

GROHE TURBOSTAT®

Always the right temperature, for ultimate convenience and safety. GROHE TurboStat® technology lies at the heart of our new thermostat.

The thermoelement unrivaled sensitivity means it delivers water at the desired temperature within a fraction of a second – and keeps it constant for the duration of your shower. No more time and water wasted getting the temperature right. And if the cold water supply fails, it reacts instantly: hot water will shut off automatically to avoid the risk of scalding.

Compensating precisely for fluctuations in temperature and pressure results in a consistent and comfortable shower throughout.

The GROHE TurboStat® thermo-element at the heart of GROHE thermostats.

Exceptionally swift reaction to water-pressure fluctuations.

EXPERIENCING ALLURE BRILLIANT

Inside and out, Allure Brilliant pushes the boundaries. With their confident and precise use of geometric shapes, Allure Brilliant explore the pure, linear appeal of minimalist architecture to create a striking and alluring portfolio of faucets, showers and fittings. Starting with the simplicity of a square or rectangle, the Allure Brilliant Collection utilises geometric forms to their full potential and takes faucets in a new direction with its clean angular lines and flat planes. An aperture at the end of the spout gives a new view of water – a cascading flow that entices and teases every time.

Faucet Styles

The Allure Brilliant Collection offers an extensive range of premium fittings for all points of interaction in your bathroom. From the basin to the bathtub and shower, the collection offers a wide range of products, giving you the freedom to tailor your bathroom to your specific requirements.

Collection page

Attractively designed collection pages with large image galleries inspire users to create and update their own bathrooms and kitchens.

GROHE BESTMATCH

Choice made simple. At GROHE our Masters of Technology and team of designers are tireless in their endeavours to expand our range, meaning that GROHE's selection of designs, materials, sizes and technical features is almost infinite. The result can be a difficult question: how to be certain that your preferred product matches and works perfectly with your chosen sanitaryware? Now there is an instant answer. The GROHE BestMatch online tool, which you can use as a website or app, instantly provides you with all the information you need to match ceramics and tap by design, comfort and waterflow. Quick as a flash it finds the best tap and washbasin option from more than 3,500 combinations tested in the GROHE laboratory – in other words, the best match.

About Good and Perfect Interaction. Do you not only want a combination of washbasin and fitting, but also a perfectly matched complete bath solution? No problem: In addition to the test criteria of 'design,' 'comfort' and 'water flow', the new criterion 'completeness' considers the complete GROHE product portfolio, which was matched to fit 100% by the GROHE in-house design team. Only those combinations which have achieved three stars in the category 'completeness' may be designated a PerfectMatch. Whether washbasin, bath fitting, shower solution or accessory, everything here is a perfect match. From now on, it will be particularly easy to find a complete bathroom solution thanks to GROHE PerfectMatch. Harmony between technology, appearance and style are guaranteed.
