WHY **ELECTRONICS?**

THE HANDS-DOWN WINNER FOR GREAT HYGIENE

GROHE infrared technology is traditionally used mainly for basins,urinals and WCs. It's here that the hygienic benefits of touchless activation become particularly evident to eliminate a potential source of cross-contamination and spread of germs.

TOUCHLESS COMFORT

GROHE has been making infrared products for many years, ensuring that all fittings start and stop the flow of water reliably and precisely. The results are comfortable, touchless operated sustainable products, for young and old.

BUILT-IN COST EFFECTIVENESS

GROHE infrared fittings offer exceptional value. With relatively low acquisition costs our range offers a host of features to keep your water, energy and maintenance costs to a minimum. Ideal for public or residential use.

The optimum in this field are our infrared products with Powerbox, which comes with a self generating power supply.Additional power supplies not required.

GROHE

THE BENEFITS OF GROHE ELECTRONICS ARE CLEAR

TOUCHLESS PRODUCT FOR VARIOUS DRAW-OFF POINTS

GROHE's touchless range deliver solutions for Basins, Showers, WC's and Urinal's.

The main functions can be set without any additional devices needed. They include:

- Automatic flushing to prevent water stagnating
- Thermal disinfection
- Cleaning mode (function prevents water flow)

With the remote control or the app the settings of all functions can be altered even more precisely to specific needs or surroundings.

RELIABLE AND PROVEN TOUCHLESS TECHNOLOGY

GROHE infrared is a proven and reliable technology; it has been successfully used and updated in the last 40 years, resulting in a highly dependable product.

For commercial settings the GROHE Power Box can help save energy too. A turbine converts kinetic energy into stored electrical energy every time the tap is used, just 60 seconds of water flow provides enough electricity to power the fitting for 24 hours.

DESIGN

GROHE's touchless products come in a range of designs, all typified by their sleek modern lines and sleek, easy-to-clean detailing. Whatever your project we have the perfect touchless design to fit perfectly with your style.

EASY INSTALLATION

Not only is the mechanical installation easy but also the electronic installation is made installer-friendly, with standard factory settings programmed to fit most needs right away. The electronics can be fed by a transformer but can also be fed by a battery with an exceptional seven year lifespan (with 150 actuations a day).

The bi-directional sensor can be programmed by hand, and also readout and programmed via remote control or via an app.

GROHE
OK

THE REMOTE **CONTROL**

All functions and settings (see page 38) can be changed with the new GROHE remote control. The menus feature a logical structure for simple operation. It is intuitive and straightforward to operate and gives plumbers, caretakers or facility managers access to the products.

The integrated screen clearly displays all the setting options and settings – even thermal disinfection can easily be activated just by pressing a button, additionally it shows various usages in an instant.

THE REMOTE **APP**

Selected GROHE products use Bluetooth® to communicate via smartphones and tablets with a free downloadable app (via Apple or Android Store). The advantage of the app is that you can read multiple products from a distance of around 15 metres. The products can be given individual names and can be made password-protected to prevent interference from outside.

The app can make an analysis of average consumption over the past 30 days, displays the number of automatic flushes and the time of the last automatic flush (see page 36). The app can also track the activations of thermal disinfection including the last thermal disinfection - all in real time.

GROHE
ESSENCE E

The design vocabulary of the Essence E range of taps, based on the cylindrical form, is simple, yet sophisticated. Contemporary looks and a high level of comfort because of height and swivel spout combine to form an elegant design that looks equally at home in public and semi-public areas, restaurants and even private sanitary facilities.

GROHE
EUROCUBE E

Based on the sleek, sharp lines of a cube, Eurocube E is perfect for minimal spaces where making a design statement is important. With the addition of our proven infrared technology to this highly popular single-lever mixer, this Cubist masterpiece is now also ideal for office, hotel or other commercial use too.

GROHE
EUROPLUS E

The Europlus E from GROHE is based on a timeless design that has made it a classic in public sanitary facilities all over the world. Owners and operators of airports, sports facilities, hospitals, clinics and restaurants value this efficient and diverse application of reliable technology that has proven itself over many years.

GROHE
EUROSMART CE / EUROECO CE

The Cosmopolitan E series offers a wide range with various heights and length of spouts, with or without mixing, to supply a perfect solution for operators of public or commercially used washrooms.

The spout of the Eurosmart CE mixers is designed at a 7 degree angle; this creates extra space below the flow control for washing hands and increases user comfort. The design is visually defined by the distinctive lozenge shape which can even be seen in the IR sensor and is typical of the Cosmopolitan range of mixers from GROHE. Its simple elegance is enhanced by the seamless body, which makes it easy to clean.

GROHE
EUROSMART CE / EUROECO CE

The Cosmopolitan E series offers one-hole solutions and a range of concealed products with mixing, pre-mixing or for cold water. This fresh, clean design fits perfectly into every surrounding, with the added benefits of concealed pipework making it easier to keep clean and offering a more luxurious appearance.

GROHE
INFRARED WC AND URINAL

Infrared urinal or wc flush control plates are the perfect complement to our taps. They all have one thing in common: the same sensor technology platform which includes all features and benefits to create a total hygienic and comfortable room concept.

The infrared technology guarantees the WC / urinal is always clean for the next user and it is also possible to programme an automatic pre-flush or cleaning flush to avoid water stagnation after a set period of inactivity.

THE REMOTE APP PRODUCTS WITH **BLUETOOTH® COMMUNICATION**

Selected GROHE products (230V) with Bluetooth® communication* boast a special feature: They can communicate with smartphones and tablets over a free downloadable app, making it easier than ever to read out consumption data and set a variety of functions.

In sanitary facilities with several mixers or WC / urinal flushes, the data from all infrared products within range are captured at once and can be read out one after the other. What's more, the draw-off points can be assigned names via the app, making maintenance more systematic.

* The Bluetooth® word mark and logos are registered trademarks of the Bluetooth® SIG, Inc. and are used by Grohe AG under licence. Other trademarks and brand names are the property of their owners.

GROHE INFRARED TECHNOLOGY
YOUR BENEFITS

BENEFITS FOR OPERATORS OF SANITARY FACILITIES IN PUBLIC AND COMMERCIAL SPACES
Reliable and durable technology with a variety of options to meet users' needs
Full transparency whenever taps and flush systems are activated, meaning more opportunities to track and control use patterns
Easier maintenance
Enhanced safety and hygiene thanks to simplified settings for automatic flushing, thermal disinfections and cleaning mode function
More efficient and cost-effective
More sustainable thanks to lower water and electricity consumption

BENEFITS FOR PLUMBERS
Better access to settings and controls of taps and flush systems
Intuitive activation and control of running times, flow rates, detection zones and other features
Easier setting of functions such as automatic flush, cleaning mode and thermal disinfection
Faster and/or simultaneous setting of entire rows of sanitary products
Enhanced service quality and easier maintenance planning

FIVE-YEAR WARRANTY
Since GROHE products are designed to have an exceptionally long service life and are subjected to intensive, extended-use testing, we are able to offer comprehensive warranties.

FUNCTIONS AND SETTINGS **BY HAND**

SETTING OPTIONS BY HAND VIA SENSORS
7 preset standard programmes for the key functions
Automatic flushing frequency (off, 24 or 72 hours, to prevent water stagnation)
Automatic flushing duration (60, 300 or 600 sec.)
Thermal disinfection (3, 5 or 11 min. or continuous operation); Sensor monitored: Automatic stop when a hand approaches (reflection)
Cleaning mode function (off or 180 sec., easy for cleaning staff to operate)
Setting flush volume for the WC and urinal (WC 4-9 l, urinal 1-7 l)
Battery charge indicator: Blinking LED = low battery charge; displays 4 charge levels: >60%, >40%, >20%, <20%

WELCOME TO **GROHE SMART**

Be SMART and become a partner of the largest loyalty program for bathroom installers! GROHE SMART is specially designed for installers of GROHE products: As a GROHE SMART partner you get more for your money – more "SMARTS" for every GROHE product purchased from the entire range and a wider choice of exciting rewards.

But it's not just individual installers that can become a partner with GROHE SMART. Your entire business can be involved – every employee can collect points, known as SMARTS, for the company.

WHAT ADVANTAGES DOES GROHE SMART OFFER YOU?

COLLECT "SMARTS" AND GET YOUR REWARDS

Our range contains more than 1,700 products for in front of and behind the wall installations – and you can collect SMARTS for all of these products and exchange them for attractive rewards! Registering the products you have purchased is easy. Simply enter the UPI code or scan the QR code from the GROHE packaging online or via the SMART app available in the Apple and Android stores – and start collecting your valuable bonus points.

MEMBERSHIP IS FREE AND FLEXIBLE

Your membership of GROHE SMART is completely free of charge and attuned to your particular needs: Receive benefits, rewards and information specifically tailored to your personal requirements. The more you use GROHE SMART, the better we can support you.

KEEP UP TO DATE

Thanks to GROHE SMART you're always well-informed. Be the first to receive product news, get invited to product courses and introductions in your area, take part in free e-learning modules and know all of the special offers available.
