Axor Citterio.

The continuation of a successful collection.

With the introduction of the Axor Citterio collection in 2003, the idea of luxury in the bathroom was redefined. This collection, successful both in the private sector and in the project business, has been supplemented and expanded by products that express Axor Citterio's core values: clarity, continuity and luxury in its purest form. Axor Citterio expresses the value of water as our life-giving elixir. This collection offers rich detail, purity of design and a wealth of new options in the bathroom. The new additions to this collection create even more ways to fulfil the needs of the most discerning of individual. In this brochure, we provide you with the key design and sales arguments that go with the new products. In addition, we will show you how the core elements of the Axor Citterio bathroom can be realised in a private bathroom and showcased in an exhibition.

Yours to discover: the expanded Axor Citterio collection offers a multitude of new ways to create a bathroom.

The new bathroom: Fresh ideas on planning and layout.

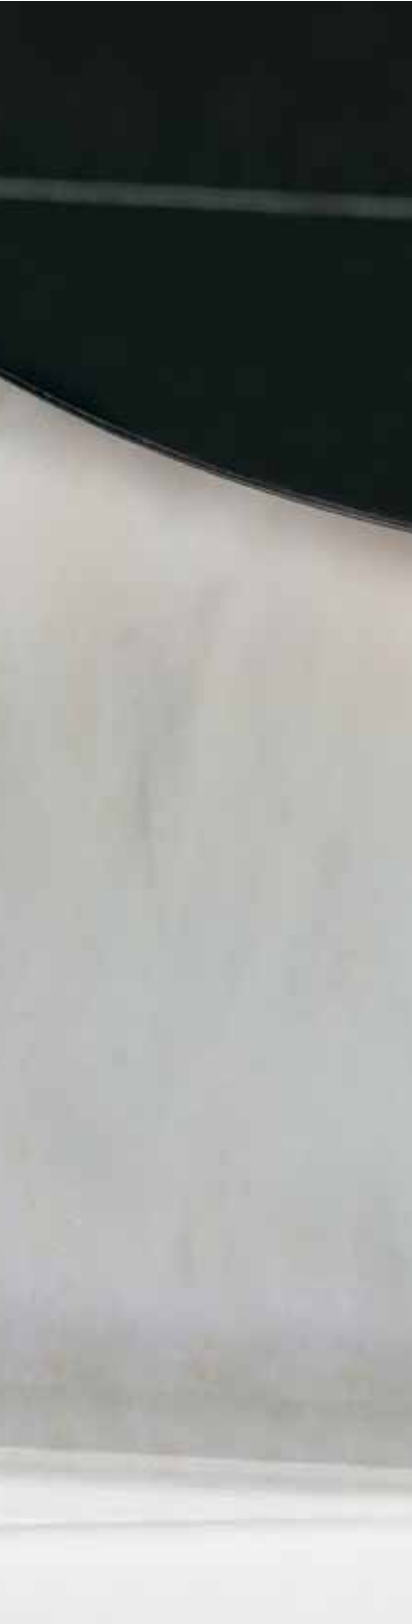

This extension of the Axor Citterio collection goes hand in hand with a new bathroom ambience. As in the 2003 bathroom, natural light and the transparency of the room continue to play an important role. The use of precious materials accentuates the superior quality of the Axor Citterio products.

The new design approach captivates by means of a rich contrast between white and black marble. When creating the Axor Citterio bathroom, we invite you to be inspired by its functional concept and distinctive ambience. In our design suggestions from page 12 onwards, we illustrate how the new Axor Citterio collection leaves scope for your personal design interpretation.

**The new products:
Slim, elegant and versatile.**

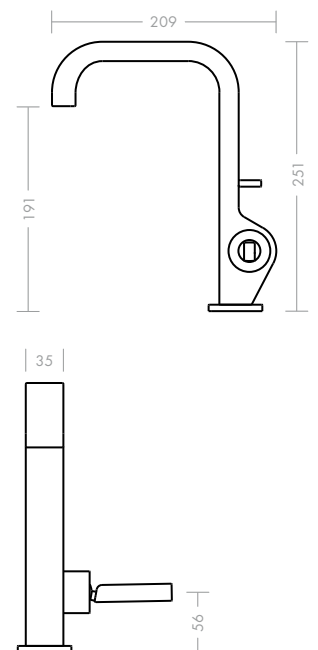

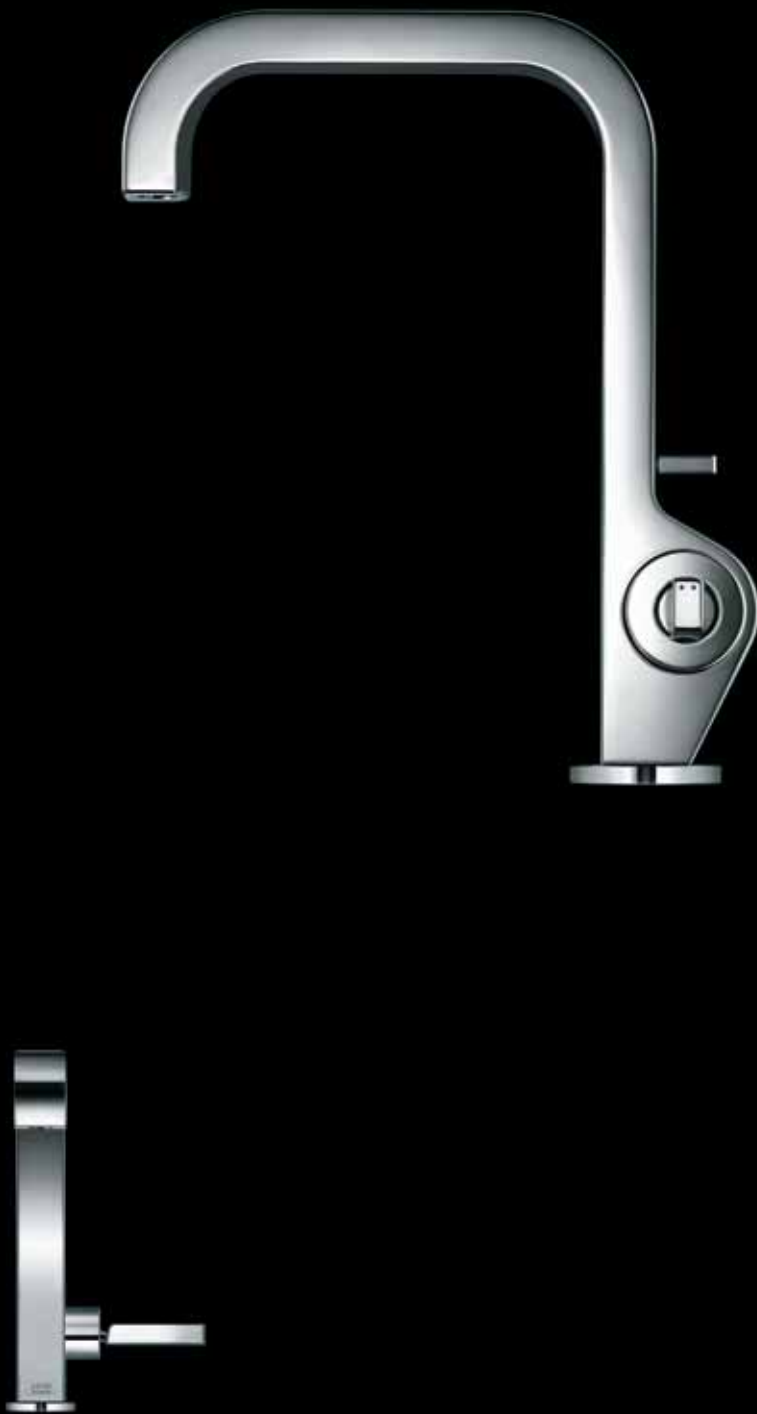

The products of the Axor Citterio collection are characterised by superior design quality and workmanship. They captivate with their pure design and present the perfect combination of strong lines and modern shapes, creating timeless design for your bathroom. The existing collection has been enhanced by the addition of three new single lever basin mixers as well as an elegant bidet mixer. Its most striking details include its shining surfaces and its precise, linear edges. The slim mixers exude an air of elegance and are extremely easy to operate.

The new, compact Axor Citterio overhead shower represents both excellence in design and perfection in the art of showering. With its various powerful spray modes it promises a vigorous, vitalising shower experience. On the following pages, you will discover in detail the new additions to the Axor Citterio collection and the wealth of design possibilities they place at your disposal.

- **Subtle luxury: timeless design, perfection in form and functionality.**
- **Superior design and workmanship for products that can be enjoyed for years to come**
- **The rich symbolism of water is reflected in the luxurious surfaces and pure design.**
- **The new mixers feature a slight change in design: they are both slimmer and taller.**
- **Continuity and a greater variety of products within the Axor Citterio collection make it that much easier to create harmonious design in the bathroom.**

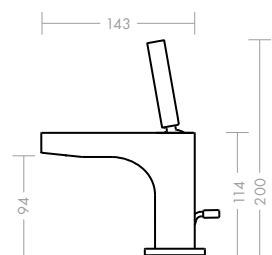

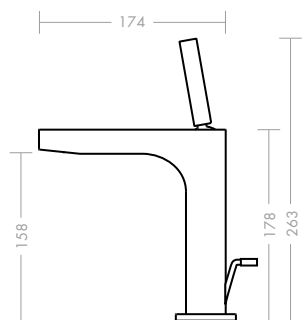

Axor Citterio single lever basin mixer with a high spout

The higher spout is a characteristic style and design element of the successful Axor Citterio 3-hole basin mixers. The innovative combination of the classic high spout and the side-integrated joystick cartridge creates a new masterpiece for any wash basin. The aerator is completely integrated into the spout. It reduces water consumption to 5 l/min. while producing a full, voluminous jet.

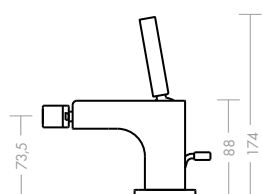

Axor Citterio 180 mm single lever basin mixer

The characteristic combination of clean lines, harmonious circles and soft, round shapes is immediately recognisable. The height and length of the spout are in well-balanced proportion to one another, making the mixer particularly comfortable to operate. The spray former is installed flush with the spout allowing for easier adjustment of the spray angle. This product is also available in a hand basin version.

Axor Citterio 90 mm single lever bidet mixer

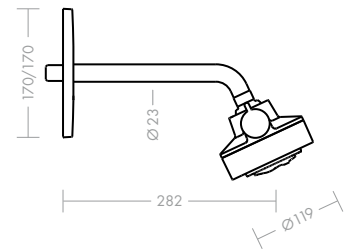

The design of the new single lever bidet mixer is inspired by the single lever basin mixer. Its basic structure and spout are cast in one piece, in a seamless and flowing transition. The joystick handle allows for simple and comfortable operation. The aerator with swivel joint can easily be adjusted as desired.

Axor Citterio overhead shower

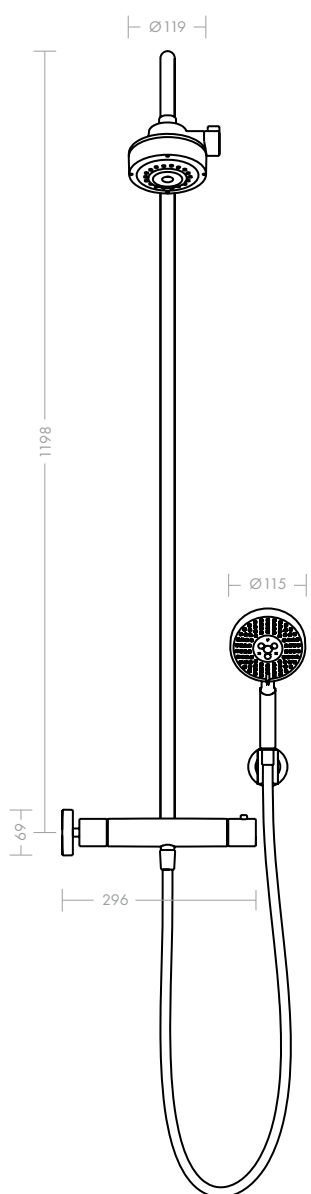

With three different spray modes, the new overhead shower offers luxurious shower comfort in its purest form. The shower combines rich aesthetics and sophisticated functionality. The side lever provides an easy way to choose between spray modes: Normal, Massage and Soft. Thanks to the QuickClean function, the shower head's spray nozzles are cleaned every time the spray mode is changed. The shower arm's 67° angle and the concentrated shower spray projects water onto the body in the most optimal way.

Shower arm and wall plate are to be ordered separately.

Axor Citterio Showerpipe

This completely pre-assembled shower system for exposed installation provides superior shower comfort. In addition, it offers the maximum degree of flexibility in terms of installation and is especially suitable for bathroom renovations. The overhead shower is easy to adjust and pampers the entire body with its Normal, Soft and Massage spray modes. The integrated thermostat technology saves water and allows you to set the exact desired shower temperature. And the SafetyStop function provides protection against scalding.

The new inspirations: Variety and perfection in form.

Inspiration 1

Water – the central element. This suggestion features a ‘room within a room’: the water-conducting block is positioned right in the middle of the bathroom, housing all of the technical installations. The large, round mirror offers a striking contrast with the linear design of the wash basin area. The two symmetrical wash basins are within easy range of access. Both the wall-mounted overhead shower and the luxurious bath tub are placed along separate outer walls. The toilet and bidet are placed within the central water block. A sliding glass door saves space and makes this area easily accessible. The combination of beige tiles and dark red surfaces demonstrate Axor Citterio’s ability to impress in more than just a black and white world.

Materials

Floor

In the side area: Graniti Fiandre, New Ground tiles, BeigeGround, PFP2836, 600 x 300 mm medium grey grouting. In the centre area: Graniti Fiandre, GEO Design Listelli multiformato tiles, colour: BeigeGround, semi-matte, D10PF28 300 x 300 mm, continuous grouting pattern

Walls

Graniti Fiandre, GEO Design Listelli multiformato tiles, colour: BeigeGround, semi-matte, D10PF28 300 x 300 mm, continuous grouting pattern. Left side wall + shower wall: floor-to-ceiling glass wall, colour: wine red, RAL 3005

Ceiling

Emulsion, painted, white RAL 9016

Wash table

Table for built-in wash basins, gloss lacquered finish, dark red colour, RAL 3005

Miscellaneous decor

Sliding door element: Burg RC40 sliding door element + fixed glass element, Aluminium frame with satined glass, ST001 L/R, Mirror: custom-cut, fine edges, 1400 mm diameter

When installing these displays in your showroom, you can use the Axor Citterio concealed ‘dummies’. Before installing, please double-check all specifications with the manufacturers’ current product ranges.

15 m², scale 1:10

Inspiration 2

Efficient and elegant: On a floor space of approximately 10,5 square metres, this suggestion offers well-conceived, luxurious comfort. Toilet and bidet comprise a separate unit that is partitioned off by a sliding glass door. This 'room within a room' makes it possible to create a larger shower area. The expansive glass facade on the right lets natural light flow into the bathroom. The black and white style of the Axor Citterio bathroom is reflected in the natural stone tiles

Materials

Floor

In the wash table and toilet areas: Royal Mosa, Terra Maestricht, Black & White 600 x 600 mm tiles, white 200 V matte, white grouting.
In the shower area: Royal Mosa, Terra Maestricht, Black & White 600 x 600 mm tiles, black 203 V matte, black grouting.

Walls

In the wash table and toilet areas: Royal Mosa, Terra Maestricht, Black & White 600 x 600 mm tiles, white 200 V matte, white grouting.
In the shower area: Royal Mosa, Terra Maestricht, Black & White 600 x 600 mm tiles, black 203 V matte, black grouting.

Ceiling

Dispersion, painted, white RAL 9016

Miscellaneous decor

Sliding door: Sprinz Motion 500, sandblasted glass
Mirror: custom-cut, fine edges, 40 mm bevelled edges, 1400 mm diameter

Before installing please double-check all the specifications with the manufacturers current product ranges.

10,5 m², scale 1:10

Inspiration 3

Luxury in the smallest of spaces: Here we offer a clever solution for creating an Axor Citterio bathroom in a very small space. The core conceptual ideas of the Axor Citterio collection can be realised even on a floor space of just a few square metres. This is expressed by the central positioning of the wash basin. The shower is next to the protruding wall and consists of wall-mounted overhead shower and matching Axor Citterio concealed installation mixers. The superior quality of this minimal-space bathroom is highlighted by tiles in a marble look. The marked-out area in the floor layout can be easily realised as a bathroom in a showroom.

Materials

Floor

Graniti Fiandre, Nero Marquina, porcelain stoneware 600 x 300 mm polished tiles. Black grey grouting. M20L36

Walls

In the wash table area: Graniti Fiandre, Michelangelo Statuario, porcelain stoneware 600 x 300 mm polished tiles. White grouting ATL9936.

In the shower area: Graniti Fiandre, Nero Marquina porcelain stoneware, 600 x 300 mm polished tiles. Black grey grouting. M20L36

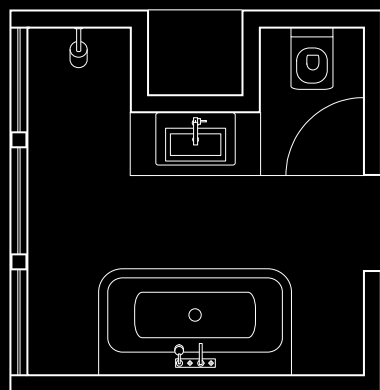

Ceiling

Dispersion, painted, white RAL 9016
